The Products..

Product Builder

Quoting and ordering for businesses that manufacture or assemble products, especially made to order or pack to order; providing the ability to have a custom bill of materials, routings, costing and pricing.

Guided Selling

Drives customers or order processors quickly and easily to the product or service they require without the need for expert knowledge.

Estimator

For businesses that need to estimate or quote accurately and consistently and reduce dependency on specialists.

Value-added Reseller

For those that procure and resell products to specific customer requirements; includes multiple supplier quotation requests, customer quotes, orders and purchase ordering requirements.

Workflow Wizard

Gives control of company processes, gives an instant view of progress & problems with goods & services from sales, survey, factory floor & delivery.

Booking/Hire Systems

Intuitive online systems for ticket booking to restaurant reservations from venue & resource hire to equipment hire.

Integrates with ERP, MRP & CRM
