

FourthShift Edition[™]

SAP Business One

FourthShift Edition Data Collection

FourthShift Edition Data Collection is an easy-to-use system for web browser access and Windows Mobile powered devices that incorporate bar code data collection and provide real-time data access for automating transaction entry and lookup.

Overview of Technology

Mobile devices, scanning guns, and standard PCs with internet access will be able to securely open a web browser, login to the server, and begin interacting with FourthShift Edition for SAP Business One.

The server technology platform is:

- Windows Server 2003
- .NET 3.5 Framework
- Microsoft SQL Server 2005
- VB.NET
- FourthShift Edition Software Development Kit
- SAP Business One Software Development Kit

Recommended Server Specifications

FourthShift Edition Data Collection web portal allows users to collect data and apply transactions to a B1/FSE server. Server specifications are:

- Processor: Dual Core 2GHz
- Hard Drive: 2 x 73GB (RAID 1)
- Memory: 4GB

Data Collection Features

The FourthShift Edition Data Collection tool is compatible with FSE starting with release 8.5 SP03.

- Web-Based Access
- Transaction Logging
- Translation/Localization
- Authorization Administration
- Reporting on User Transactions
- Secure Sockets Layer (SSL) Protocol

FourthShift Edition Data Collection

Supported Transactions

FourthShift Edition Data Collection supports 17 transactions “out of the box.” However, SoftBrands’ Custom Services team can create additional custom transactions for FourthShift Edition Data Collection for SAP Business One to meet your business needs. All transactions are logged for tracking and auditing purposes, and users are only able to see the transactions they are authorized to run.

Data Collection Transactions Include:

- B1 Delivery
- B1 Return
- B1 Goods Receipt PO
- B1 Goods Return PO
- B1 Goods Receipt
- B1 Goods Issue
- FSE Stock Transfer
- FSE Production Issue
- FSE Reverse Production Issue
- FSE Production Receipt
- FSE Production Return
- FSE Inventory Detail by Item
- FSE Inventory Detail by Bin
- FSE Custom Products Issue Components
- FSE Custom Products Reverse Issue Components
- FSE Custom Products Goods Receipt
- FSE Custom Products Goods Return
